## **EAST PIONEER AVE. PHASE I**

### **A. Scope**

Phase 1 of the project will reconstruct the road and sidewalks on East Pioneer Avenue from Main Street to Church Street. The project includes new storm drains, replacing sidewalks, rebuilding the sub-grade and new pavement. Prior to the road work, the City contracted with Roglin's to replace the water main on the North side of the road.

### **B. Budget**

Total project budget for the road work is \$1,105,158

### **C. Funding**

Federal Grant      \$925,686

State Grant         \$144,472

City Funds         \$ 35,000

### **D. Timeline**

Initial Design            2015

Construction Design    2016

Construction            2017-2018

Phase 1 construction was started in August of 2017 and was suspended due to weather. The project was started in August rather than April or May due to delays resulting from federal right of way requirements. The project had to be started in 2017 to maintain the federal funding. The project will get started again in the spring of 2018, weather permitting, and should be complete by the middle of June 2018.
