EAST PIONEER WATER IMPROVEMENTS - PHASE 2

A. Scope

Phase 2 of the East Pioneer Water Improvements will replace the Asbestos Cement water main in the north lane of East Pioneer Avenue from Church Street to Academy Street. The north lane of the street will then need to be reconstructed and re-paved. The project includes two new storm drains, replacing badly damaged sidewalks on the south side and grinding and paving the south lane of the street.

B. Budget

Total project budget for the road work is \$460,000

C. Funding (all City funds)

Water	\$400,00
Streets	\$40,000
Storm	\$ 20,000

D. Timeline

Design (by the City)	2017-2018
Construction	2018

A bid was received from Rognlin's for \$412,520, which is within the allocated project budget. Phase 2 will be constructed concurrently with the end of the East Pioneer Phase 1 project. The project will get started in the spring of 2018, weather permitting, and should be complete by the middle of June 2018.
